

# SNLL License by SwankyNoob

Restrictive Licensing

## 1.1 Forbidden to Commercialize

It is prohibited to commercialize Software, Apps or Games with the SNLL License.

### ⇒ Author Authorization

If there is an authorization from the author, you must give the credits, with the original file and a URL with the site or original repository of the work.

## 1.2 Restricted Distribution

Distribution is restricted, and modification is prohibited. Distribution is only allowed with original files, giving credit to the author, providing:

URL for Site/Repository, Citing Author Name, Providing URL for this license.

- Only websites with SSL certificates are allowed to distribute works under this license.
- Websites that distribute works under this license must have a SwankySea social login.
- Websites that distribute works under this license must only have domains authorized and cited in the license: .com, .ml, .io, .dev, .info, .org, .online and .ga

### ⇒ Cookie Restriction

Websites that distribute works under this license must have a Cookie Concetion Notice, and must also provide Terms of Service (of the website) and Terms of Privacy (of the website).

The developer of the work that has this license must make it available in the software files, app or game.

---

### 🔑 **Mandatory API**

Works with this license must have the API (or at least part of the API) from SNLL Devs.

## 1.3 Worldwide Distribution Restriction

Third-party distribution is forbidden in certain countries, specifically in Russia. Russian Websites and Platforms cannot distribute works with this license.

## 1.4 Hackers and Plagiarists will be punished

Invaders, Hackers and Plagiarists will be punished and reported from such platforms. For example, users who create pirated versions will be punished and will lose their websites and accounts on the respective platforms, and the author will be authorized to sue them legally.

## Official SNLL license documentation

This is an official and original license, created by SwankyNoob Inc.
